Independent Auditors' Report

The Board of Directors W.E. Nightingale Brokerage Services, Inc.

We have audited the accompanying statements of financial condition of W.E. Nightingale Brokerage Services, Inc. as of December 31, 2008 and 2007 and the related statements of operations, changes in stockholders' equity and cash flows for the years then ended that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of W.E. Nightingale Brokerage Services, Inc. as of December 31, 2008 and 2007 and the results of its operations, changes in stockholder's equity, and cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in the supplementary schedules is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 of the Securities and Exchange Commission. Such information has been subjected to the auditing procedures applied in the examination of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole, and in conformity with the rules of the Securities and Exchange Commission.

Notes to Financial Statements

1. Description of the Business

The Company is an introducing broker and has a standard agreement with its clearing broker. All securities are introduced and cleared on a fully disclosed basis through the clearing broker.

2. Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Cash Equivalents

For purposes of the statement of cash flows, the company considers all highly liquid debt instruments purchased with an initial maturity of three months or less to be cash equivalents.

Securities Transactions

Securities transactions are recorded on a trade date basis.

Income Tax Status

As a Subchapter S Company the Company's Federal and New York State income is taxed in the individual income tax returns of its shareholder. While the Company has not yet completed a study of the potential affect of adoption of FIN 48, in the opinion of management, adoption of FIN 48 should not have a significant affect on the Company. The Company's current accounting policy is to provide liabilities for uncertain tax positions when a liability is probable and estimable.

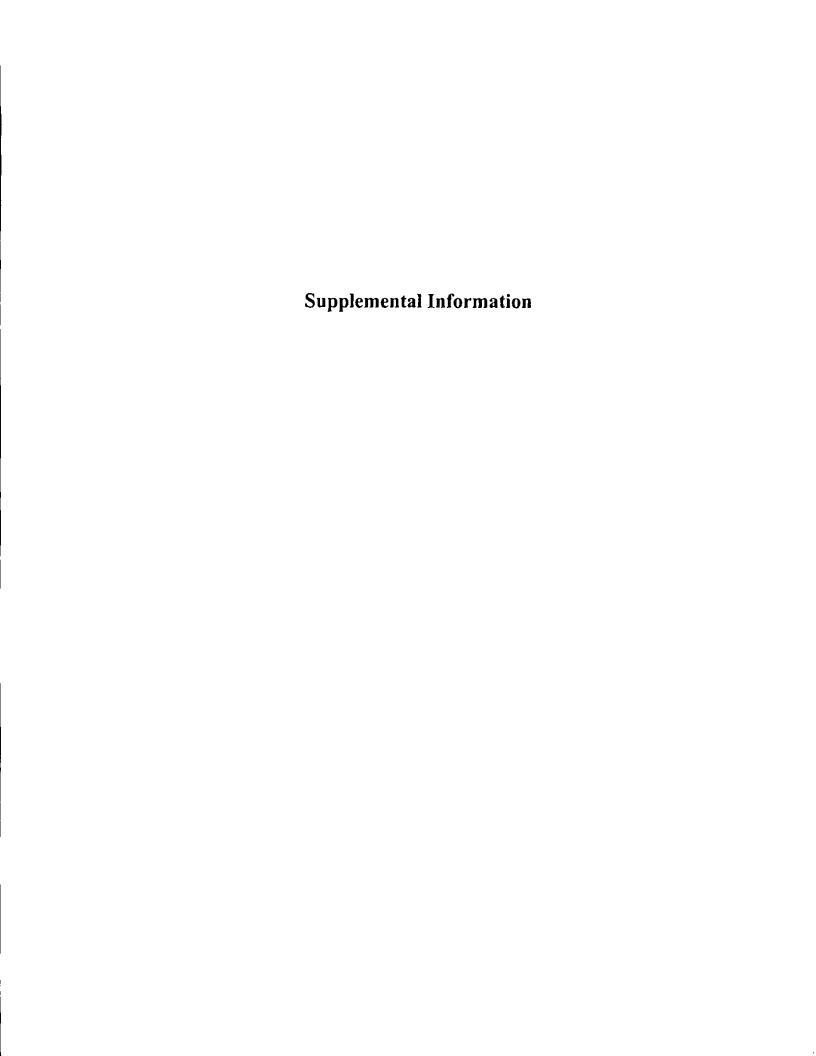

Concentration of Credit Risk

W. E. Nightingale's financial instruments that are potentially exposed to concentrations of credit risk consist primarily of cash, securities and accounts receivable. The company places its cash and securities with quality financial institutions. The company's accounts receivable consists of an amount due from their clearing broker. As a consequence, concentration of credit risk is limited.

Notes to Financial Statements

2. Net Capital Requirements

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital, and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. As of December 31, 2008, the company had net capital of \$32,525 which was \$27,525 in excess of its required net capital. The company's net capital ratio was .09 to 1.

Schedule of Computation of Net Capital Under Securities and Exchange Commission Rule 15c3-1

December 31, 2008

Shareholder's equity per statement of financial condition	<u>\$</u>	32,525
Net capital		32,525
Minimum net capital requirement - 6-2/3% of aggregate indebtedness, or \$5,000, whichever is greater		5,000
Excess of net capital over minimum requirement		27,525
Aggregate indebtedness Accrued expenses and other liabilities		3,000
Percentage of aggregate indebtedness to net capital		9.22%
Reconciliation of Computation of Net Capital Under Securities and Exchange Commission	sion	

There is no material difference between the above calculation included in the company's unaudited FOCUS report as of December 31, 2008.

Rule 15c3-1

Schedule of Computation of Reserve Requirements
Under Exhibit A of Securities and Exchange Commission Rule 15c-3

December 31, 2008

The firm is engaged in a general securities business and carried no customer accounts on its books. All customer transactions are cleared through another stock brokerage firm on a fully disclosed basis.

Schedule Relating to the Possession or Control Requirements Under Securities and Exchange Commission Rule 15c-3

December 31, 2008

The firm is engaged in a general securities business and carried no customer accounts on its books. All customer transactions are cleared through another stock brokerage firm on a fully disclosed basis and the firm does not have possession of customer securities.

Independent Auditors' Report on Internal Control Structure Required by Sec Rule 17a-5

The Board of Directors and Shareholder W.E. Nightingale Brokerage Services, Inc.

In planning and performing our audit of the financial statements and supplemental schedule of W.E. Nightingale Brokerage Services, Inc. (the "Company"), for the year ended December 31, 2008, in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company consideration of control activities for safe guarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c-3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

- 1. Making quarterly securities examinations, counts, verifications, and comparisons and recordation of differences required by Rule 17a-13
- Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, errors or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliability in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2008, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, the National Association of Securities Dealers, Inc. and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
